

6S Study Skills Certificated Coaching Course

The 6S Study Skills System is a simple and effective self-directed learning to learn process which enables students to experiment with and master an array of useful learning tools whilst reflecting daily on ways to fine-tune their whole bodies for upcoming exam success.

It is an entirely original and unique system created by Positively Mad and one of the few study-skills programs to combine personal development, study skills, creative thinking and reflective practice.

This intense, yet enjoyable half-day workshop will show you how to learn the 6S Study Skills Course so that you are able to run it to other professionals or school students. It guides you through the process of understanding the 6S Study Skills System in a practical, hands-on manner that is both engaging and informative.

The course is designed to make it easier for you to get to grips with the fundamentals of the 6S Study Skills System. You will get the complete Presenter's Pack and a full set of student resources as well as in-depth training from the creator of the programme.

We will show you how to personalise the course to bespoke it to your purposes and provide ways for you to understand and teach its various learning tools to others.
